

Sustainable Waste Management: Policies, Partnership and Prospects

8 Jun 05, 08:30 - 16:00

Centenary Room, Marco Polo Hongkong Hotel

Recognising that the landfills in Hong Kong will be exhausted within the next decade, we face a critical need to find sustainable alternatives to reduce, recycle and dispose of our waste.

This conference will provide a platform presenting the proposed changes to institutional arrangements for solid waste management, the feasibility of other solutions and opinion from the policy makers, business leaders, and community on these changes. The main themes include:

- Future directions on the local and regional institutional solid waste management policy, from the government, community and business perspectives
- Overview of the latest waste treatment technology and recycling options such as waste pre-treatment, biological treatment and thermal treatment
- Public-private partnership to achieve sustainable waste management (investment and financing opportunities, improving the recycling industry, etc)

Confirmed Moderators & Speakers Included:

- **Mr. Angelos BACOPOULOS**, General Manager of Solid Waste Management Services, City of Toronto
- **Mr. Robin CHIU**, Director General, Federation of Hong Kong Industries
- **Ms. CHOY So-Yuk**, Legislative Councillor, HKSAR Government
